OF

ACTA OECONOMICA

ACADEMIAE SCIENTIARUM HUNGARICAE

1. CLASSIFIED LIST OF ARTICLES AND REVIEWS

1. Economic theory and methodology

	Vol.	No.
BRÓDY, A.: On linear models of the economy	II.	3.
BRÓDY, A.: Dual concept of the economy in Marx's "Capital"	II.	4.
FRISS, I.: Ленинские принципы планирования	V.	3.
GÖNCÖL, G.: Some aspects of the theoretical work of Eugen Varga	IV.	1.
DOBB, M.: Modern "western" theories of economic growth	I.	3—4.
PERROUX, F.: Le théorème Heckscher—Ohlin—Samuelson et la théorie du commerce international	V.	4.
FRISS, I.: Законы социалистического хозяйства и его управление	II.	4.
NAGY, T.: Цены при социализме	II.	3.
HOCH, R.: Market equilibrium and changes in the price-level in socialism	I.	3—4.
HOCH, R.: Effect of changes in the consumption pattern on the growth rate of total consumption	IV.	1.
MARTOS, B.: A note on efficient consumption paths in a Harrod-Domar type model	II.	3.
SZAKOLCZAI, GY.: The pattern of investments and the rate of growth	II.	3.
LUNDBERG, E.: Structural change and market efficiency	IV.	4.
ERDŐS, P.: Über das Nicht-Warengeld als Mass der Werte im Kapitalismus	I.	1—2.
MOLNÁR, F.: Some theoretical problems of contemporary capitalist economy	I.	3—4.
MOLNÁR, F.: Contemporary capitalist reproduction: cyclical or not	II.	4.
ERDŐS, T.: Surplus value and its rate in contemporary capitalism	V.	4.
GERGELY, I.: Long-term decisions at enterprise level	I.	1—2.
SZAKOLCZAI, GY.—VÁSÁRHELYI, P.: Extrapolated matrices of input-output technical coefficients	III.	3.
KOZMA, F.: On the international comparison of input-output tables	I.	1—2.
EHRlich, É.: International comparisons by indicators expressed in physical units	II.	1—2.

2. Hungarian economy: planning and policies

NYERS, R.: Our road, our objectives and principles — as reflected in the events of a quarter-century	V.	1—2.
ZALA, J.: 1958—1967: the economic trends of a decade	III.	2.
FRISS, I.: Ideas on the improvement of national economic planning	II.	1—2.
НЕТЭНИ, I.: Economic development and long-term planning	IV.	2.
FRISS, I.: Некоторые соображения о планировании на 15 лет венгерского народного хозяйства	V.	1—2.
BOD, P.: On a possible mathematical model of long-term (15—20 year) national economic planning	IV.	3.
CUKOR, GY.: Long-term planning and technological progress	IV.	3.

	Vol.	No.
DRECIN, J.—HETÉNYI, I.: Growth rate and major proportions of the fourth Hungarian five-year plan (1971—1975)	V.	3.
KORNAI, J.—Mrs. UJLAKI, L.: Application of an aggregate programming model on five-year planning	II.	4.
UJLAKI, Zs.: Application of an aggregate programming model in preparing the 4th five-year plan	V.	1—2.
VARGA, Gy.: On the structural development of national economy	I.	1—2.
JÁNOSSY, F.: Widersprüche in der ungarischen Wirtschaftsstruktur — wie sind sie entstanden und wie können sie überwunden werden	IV.	4.
GANCZER, S.: Price calculations and the analysis of proportions within the national economy	I.	1—2.
CSERNOK, A.: Hungary's national income established on the basis of the system of national accounts	III.	4.
LÁZÁR, G.: Regional pattern of the Hungarian economy — development and some topical problems	IV.	3.
LENGYEL, L.: The living standard: facts and opinions	I.	3—4.
HUSZÁR, I.: On living standard policy in Hungary	IV.	1.
VARGA, Gy.: Long-term planning at the Hungarian enterprises	V.	4.
GERVAI, B.: The role and situation of private artisans in Hungary	III.	4.

3. Economic reform

NYERS, R.: The comprehensive reform of managing the national economy in Hungary	I.	1—2.
PÉTER, Gy.: On the planned central control and management of the economy	II.	1—2.
CSAPÓ, L.: Central planning in a guided market model	I.	3—4.
SCHMIDT, A.: Grundlegende Eigenheiten des neuen ungarischen Wirtschaftsmechanismus	IV.	3.
HEGEDÜS, A.: Economic reforms, and the fundamental systems established in socialist societies	V.	4.
TARDOS, M.: A model of the behaviour of central agencies and enterprises	IV.	1.
TIMÁR, M.: The reform of the financial and credit system in Hungary	II.	1—2.
ÁCS, L.: The effects of the banking system on enterprise management under the new Hungarian economic mechanism	III.	1.
SZABÓ, K.—MANDEL, M.: Management of fixed assets in the new economic mechanism	I.	3—4.
NAGY, T.: On the expedient forms of reallocating capital in the Hungarian economy	V.	4.
CSIKÓS-NAGY, B.: Two stages of the Hungarian debate on prices	I.	3—4.
WILCSEK, J.: The role of profit in the management of enterprises	II.	1—2.
RÉVÉSZ, G.: Regulation of enterprise profits under the new system of economic control and management	III.	1.
CSENDES, B.: Актуальные вопросы планомерного управления хозяйством производственных кооперативов	I.	1—2.
LÁSZLÓ, J.: The planned control of cooperative farm production and the reform	II.	3.
FENYŐ, I.: The new system of management in Hungarian home trade	II.	1—2.
SZILÁGYI, P.: Обращение средств производства в новой системе управления народным хозяйством	I.	3—4.
BALÁZSY, S.: Foreign trade and the reform of economic management	I.	3—4.
BOGNÁR, J.: La conception du commerce extérieur dans le nouveau mécanisme économique	II.	1—2.
VAJDA, I.: External equilibrium, neo-techniques and economic reform	II.	4.

	Vol.	No.
TATAI, Z.: Tools of regional development under the new system of economic control and management	IV.	4.
